Service Scope

Delivered by highly skilled consultants with strong domain expertise and rich experience to ensure that the advanced analytics and intelligent insights solution meets your business needs. Design workshops require collaboration with key customer stakeholders from architecture and virtualization teams. After the design workshop, the consultant develops a Nutanix Design document for deploying Nutanix X-Play automation and playbooks to automate common tasks within the Nutanix Cloud Platform.

This service includes the following activities:

- Conduct an NCM Intelligence Operations design workshop:
  - Gather and document solution requirements, constraints, assumptions, dependencies, and decisions
  - Provide an overview of the technology and capture the targeted use cases and actions
- Create a detailed NCM Intelligent Operations design that defines the triggers, built-in workflow actions, and playbooks

Limitations

- For each quantity purchased, design is limited to up to 10 action policies or playbooks
- Excludes scripted solutions requiring custom scripts

  Note: Custom-scripted solutions can be accommodated via a custom statement of work (SOW)
